

A Generation Besieged

I am hereby on behalf, of generation Z
That includes all of you, to a certain degree
In a midst of such time, full of discrepancy
So let us all suffice, with the utmost of urgency

Our nation today, before us in dismay
So fragile in vein, too soon to decay
Broken are the wings, of our democracy
Abandoning a future, into indefinite purgatory

Here we witness, an act of absolute treason
Such cowardice of beings, with no ability to reason
Not long will it be, for we will all stand
Will we succeed, to see them disband

No doubt will we face, the wrath of a system
That will dissolve our most, fundamentals of freedom
But let's not be silenced, by such atrocity
For what we believe, is our love for democracy

Make the most, of all you dear
For let not their crimes, be of our fear
We will prevail, in our hearts we gather
For all we know, we're in this together

It is now our turn, to stand up for the things at stake
Remember those before us, that bled for our sake.
So spread the word, of our humanity they breached
And let it be known, that we are the generation besieged.
