3:35pm	Character work with Corey
4:00pm	End of Day

General Notes:

1. Ron, Sam, and Michael stopped by to check in about furniture storage in Studio 5 since they are tight on space down in the Props Work Room in the shop. We would be able to store more furniture in our closet but there are currently three flip forms and a box of rollers living in the back of the closet. Is it possible to have these moved to central storage so we might utilize the entire closet for our show?
2. There are a number of scuffs on the floor which make it hard to tell spike tape from scuff, would it be possible to get those removed? Can that be taken care of with a work order?
3. The piano takes up a large portion of an already tight room, is it possible to move the piano out of the studio during rehearsal and move it back in when we are done for the day?

Scenic:
